

“Broadband has greater potential to transform education than any other technological innovation of our lifetime.”

– Federal Communications Commission

# mobilebeacon®

4G Internet Access. 4 Nonprofits. 4 Less.

Mobile Beacon is a 501(c)(3) nonprofit and the second largest national Educational Broadband Service (EBS) provider in the U.S. We provide 4G mobile broadband service exclusively to educational and nonprofit organizations. Our mission is to make affordable Internet access available to educators, helping them provide equal educational opportunities to every student in need.

## Save more. Reach more.

**Unlimited Access:** All of our devices come with \$10/month unlimited data plans. No data caps, no overage charges, no worries.

**Broader Reach:** Our service helps underserved Americans of all ages and family types – not just those who have a child receiving free school lunch. It's also available to teachers and staff.

**Anytime, Anywhere Access:** We offer fixed and mobile devices to address both in-school and out-of-school connectivity needs.

**Low-Cost, Long-Term Solution:** There is no set expiration date on our \$10/month service.

## Choose from these devices.

### CLEAR Hub Express

It's a modem with an integrated Wi-Fi router all in one! Instantly set up wireless access in a classroom, or use it as a back-up Internet source so you never go dark again.

### CLEAR Stick Atlas

This lightweight, portable device fits in your pocket for the ultimate in mobility. Perfect for students and faculty who need to be logged in both at school and at home.

### CLEAR Spot® Voyager

This portable, wireless hotspot connects up to eight Wi-Fi devices such as a laptop, smartphone, netbook, or tablet PC. It's ideal for field trips and off-campus events.

## We help schools address specific challenges including:

- Providing out-of-school access to students who do not have Internet access at home.
- Creating a second Internet source to help meet the broadband demands of the Common Core State Standards Initiative.
- Providing mobile access to teachers on field trips and IT administrators as they visit sites throughout the district.
- Creating a low-cost, back-up Internet connection so your lessons aren't interrupted by slow speeds or a lost Internet connection.

The i3 Internet Inclusion Initiative was born out of our mission to make broadband affordable and connect underserved Americans to digital opportunities. School districts can leverage our partner programs to obtain donated school-owned devices, or to provide an affordable option to students and staff for individual-owned devices.

### Get Donated Devices for Your School

Through our partnership with **Digital Wish**, you can:

- Try our service with just one device, and apply for 10 more in the same fiscal year.
- Schools in certain disaster recovery states (Colorado, Connecticut, New Jersey, New York, Oklahoma, Rhode Island and Texas) can apply for up to 26 donated devices per year.
- School districts interested in making a bulk purchase can contact Gordon Woodrow at [gordon@digitalwish.org](mailto:gordon@digitalwish.org).

For more information, visit  
[www.mobilebeacon.org/digitalwish](http://www.mobilebeacon.org/digitalwish)

### Enable students and staff to purchase directly.

Through our partnership with **EveryoneOn**, you can:

- Enable your teachers, administrators and staff to directly purchase Mobile Beacon's \$10/month service and low-cost devices.
- Extend the offer to help connect individual students, families, and other underserved members of your school community.
- Use EveryoneOn's free crowdfunding platform to fund your connectivity goals. 100% of proceeds go to your campaign.

**The best part?** EveryoneOn takes care of the individual back-end billing for you. They'll also provide you with free monthly reports so you can track adoption and retention over time.
