

Get online and get ahead!

In an increasingly digital world, those without high-speed Internet access are often at a disadvantage in important areas like education, healthcare, job searches, and career advancement. Our mission is to break down barriers to access, helping to connect those who need it most. Through our i3 Internet Inclusion Initiative, we provide low-cost, high speed Internet access to those who can't afford expensive commercial rates.

Mobile Beacon teamed up with **everyoneon** to offer unlimited 4G Internet access for just \$10/month.

Now 16 million Americans with a median household income below \$35,000 per year in 27 states* are pre-qualified for this offer.

Here's how our program can help you.

- 1 We offer unlimited data. Connect as often as you like without worrying about data caps or overage charges.
- 2 We offer access when and where you need it. Choose from a home Internet device or mobile Internet device based on how you use the Internet.
- 3 We reach more people. Our offer is available to underserved Americans of all ages and family types, including seniors and the disabled.
- 4 It's a low cost, long-term solution. There is no expiration date on our \$10/month program.
- 5 Get additional resources. EveryoneOn's platform helps you find offers on low-cost computers and free training on how to use the Internet and basic computer skills.

Everyone benefits from fast Internet service:

- Search for jobs
- Pay bills online
- Help with homework
- Keep in touch with friends & family
- Take an online class
- Share photos
- Watch videos
- Download music
