

## Connecting nonprofits and their communities!

Through our i3 Internet Inclusion Initiative, we're helping schools, libraries, housing authorities, community-based organizations and other nonprofits provide their constituents with low cost Internet access and unlimited data plans. Combined with the low cost computers and free digital literacy training available through EveryoneOn, this partnership brings together the access, hardware, and training needed to put Americans on the path to digital opportunity.

### Mobile Beacon teamed up with **everyoneon** to offer unlimited 4G Internet access for just \$10/month.

**Unlimited Data** – no data caps, no overage charges

**Mobility** – a choice of mobile or fixed devices for anytime/anywhere access

**Broader reach** – available to underserved Americans of all ages and family types in 27 states,\* everyone from students to seniors to single adults

**Low cost, long-term solution** – no expiration date on our \$10/month offer

#### How it helps you and those you serve:

**Affordable connectivity for your nonprofit.** Create an inexpensive back-up Internet service for your office, or provide mobile access for your staff, volunteers, and board of directors.

**Extend this offer to your constituents.** For example, schools can qualify families, housing authorities can offer access to low-income residents, and libraries can help underserved patrons such as the elderly and disabled.

**Better access without the administrative burden.** EveryoneOn manages the back-end billing for individuals who enroll in the plan, so you don't have to manage it. Plus, they provide free custom reporting so you can track adoption, retention, and usage over time.

#### Sign up today!

Become a registered partner by completing EveryoneOn's [online application](#), then prequalify your membership. For detailed instructions, visit
