Mobile Beacon Launches Disaster Relief Program to Support Texas Communities Impacted by Flooding

Johnston, RI -In response to the devastating flooding across Texas, Mobile Beacon, a nonprofit provider of affordable, high-speed wireless internet, is launching a Disaster Recovery Technology Kit Program to help restore connectivity for community anchor institutions on the front lines of the crisis.

The program provides up to 25 free 4G LTE hotspot devices to eligible schools, libraries, healthcare providers, and nonprofits in the affected regions. These devices come paired with Mobile Beacon's reliable, unlimited internet service for just \$10/month per device—a deeply discounted rate designed to help organizations stay connected when it matters most. This initiative ensures that community institutions can continue delivering vital services and support during the recovery process.

"In times of disaster, a reliable internet connection becomes a vital tool to coordinate services, access emergency information, and provide continued support to the community," said Joseph Gleason, Director of Programs and Strategic Partnerships at Mobile Beacon. "This program ensures that local organizations can stay connected when their communities need them most."

The Disaster Recovery Technology Kit is designed to provide fast, flexible internet access for use in temporary shelters, mobile health clinics, community resource centers, and more. Mobile Beacon's service runs on America's Largest and Fastest 4G/5G network with no data caps or throttling, making it a dependable option during emergencies.

The Texas Flood Disaster Recovery Program is open from July 30 through October 23, 2025, or while supplies last. Interested organizations can learn more and verify their eligibility by visiting: <https://www.mobilebeacon.org/disaster-recovery-technology-kit-flood/>.

###

About Mobile Beacon: Mobile Beacon provides high-speed, low-cost mobile internet access to the anchors of communities: the nonprofits, schools, libraries, and healthcare organizations that provide vital services to millions of Americans every day. Through this broadband service,

organizations have an essential tool to fulfill their missions and maximize their philanthropic impact, which allows organizations to access more information, reach more people, and help more in their communities. Learn more at www.mobilebeacon.org.
